MEMISA

20/08/2018

I had the opportunity to come visit on Sept. 20, 2018. My visit was in the framework of the Basic Health Care & Support Programme, supported by MEMISA.

I was truly impressed by the level of empowerment and the level of commitment of the community for health issues. The power truly is among the people in this lovely community. I leave now with rainbows in my eyes and butterflies in my ears, hoping everybody in the world could be taken engaged in their community. I could feel the love all around. I am humbly saying Thank you.

I hope I'll visit you soon, and I'm sure I'll be even more impressed each time.

I really say thank you for your hospitality.
