

We really enjoyed visiting Itarai. The children were really talented showing us dancing, singing and yoga. They were very polite. All of the children got tooth paste, and we taught them about hygiene.

Then we met with the elderly. We measured BP and weight. They seemed very happy. We gave them food, soap, tooth paste and sauces for Durga Puja. They were very thankful.

You have a really beautiful village and we are so happy and thankful to have the opportunity to visit you. The lunch was also great, with both chicken, fish and dessert. We are really thankful.
